

Cogent Communications

Cogent Communications is a multinational, Tier-1 facilities-based ISP, consistently ranked as one of the top five backbone networks in the world. Cogent specializes in providing businesses with high speed Internet access, Ethernet VPN, optical transport, and colocation services. Cogent built one of the largest and highest capacity IP networks in existence, which enables Cogent to offer large bandwidth connections at highly competitive prices.

IP Transit

Worldwide Top 3
Tier 1 Network
AS 174 - connected to over
8135 AS

Available interfaces:
1G, 10G, 100G
depending on location
in over 1688 data centers
globally

Dedicated Internet Access

Choose First Class service
Leading SLA
Fiber only - no more DSL or
Cable

Available port speeds:
100Mbps, 1 Gbps, 10 Gbps
depending on location
in over 5 million fiber-lit
locations worldwide

Global Peer Connect

Connect to the Global Peer
Exchange
Reduce Cost and Latency
Increase Resilience and
Control

10G port
Available in 1688 data
centers globally
Pay for traffic exchanged

Ethernet Services

Solutions to your Ethernet
needs
Point-to-Point / Multipoint or
VPLS
Simple, flexible and cost-
effective
Available port speeds:
100Mbps, 1 Gbps, 10 Gbps
depending on location
in over 5 million fiber-lit
locations worldwide

Optical Wavelengths

Low-latency, high-bandwidth
Robust, secure, cost-efficient
diversity and redundancy

Available interfaces:
10G, 100G, 400G
depending on location
in over 750 data centers in
North America

SD-WAN

Fast, secure & efficient
Integrated VPN & Internet /
Cloud
End-to-end monitoring

Colocation

Secure, state-of-the-art
facilities
Connection to Cogent's
backbone
1/2 rack, full rack, or cage

Available in over 86 Cogent
Data Centers in North
America and Europe

Utility Computing

Use our servers to host your
data
No hidden fees
Available in certain Cogent
Data Centers
